## SOME OF THE HIGHLIGHTS TO LOOK FORWARD TO:

Naim have recently launched their most powerful all in one product .

The Nova PE has set the reference for sound quality. It is one of the very best Hi-Fi products ever made.

Jason Gould from Naim Audio will be showing this alongside a full 200 and 300 series system.

We will be showing Naim's Statement in full paired with a 333 Streamer, NPX 300 power supply, and a pair of KEF Blade 1 Meta speakers.

This combined with some of The Chord Company's best cabling and a pair of REL's No31 subs will be one not to miss.

K U D O S

We are very pleased to be able to play you Kudos' highly anticipated active crossover.

We are pairing it with Chord Electronics' amplification and an Innous front end.

Derek (the owner and lead designer of Kudos) was so impressed with how this pairing sounded - he bought a full Chord active system on the spot!

Chord Electronics Ltd.

Chord Electronics are one of the UK's most desirable electronics brands.

We think you will be amazed by how the Chord Ultima preamp paired with 3 Ultima 5 power amps sound.

Their fast and lively presentation compliment the Titan 808s perfectly.

**rega**

We will be demonstrating Rega's new Naia reference turntable.

We warn you, if you have a Planar 8 or 10, listen to this at your own risk! Happily, however, we are running a special trade-in promotion on Planar 8 and 10 turntables. Call us for more information.

**KEF**

KEF are the UK's biggest selling speaker brand. They recently upgraded and reworked all their Reference and Blade models.

We will be showing you their new Blade 1 Meta speakers.

All the speakers in KEF's ranges were developed using this flagship technology.

Focal Scala Utopia are part of Focal's best range of speakers.

In our view one of the best looking speakers out there, and truly a reference loud speaker.

We are very pleased to be running a special promotion on these speakers for both trade-ins and new purchases. Please contact us for further details.

## **ACOUSTIC ENERGY** *— for the love of music*

Acoustic Energy are world famous for producing fabulous speakers.

They decided to turn their hand to designing the best speakers on the market under £10,000.

We were both surprised and impressed when we heard them and then staggered to find out that they were £6000 per pair.

Build quality is top notch, they look great and sound more than twice the price!

# DYNAUDIO

Dynaudio have launched their new Legacy speakers. They take the technology from Dynaudio's flagship Confidence speakers and package it in a more traditional cabinet.
