

ACOUSTICA HI-FI SHOW 2025

SATURDAY 15TH & SUNDAY 16TH NOVEMBER

10AM - 5PM

DOUBLETREE HILTON CHESTER

IT'S BEEN WONDERFUL THIS YEAR TO SEE AND HELP SO MANY CUSTOMERS, BOTH
LONG STANDING AND NEW.

AS USUAL, AT THIS YEARS' ANNUAL SHOW WE WILL BE SHOWCASING A RANGE OF
SYSTEMS THAT WE HAVE ASSEMBLED TO DEMONSTRATE WHAT WE FEEL IS THE BEST
AT VARIOUS PRICE POINTS.

READ ON TO FIND OUT MORE AND WE LOOK FORWARD TO WELCOMING YOU THERE!

A SPECIAL GUEST TO THIS YEARS SHOW: BOB HARRIS

We are so pleased to be able to welcome Bob Harris to this years' show.

Bob needs little introduction with such a distinguished and long lasting career within the music industry. Amongst his achievements he has helped many bands and artists launch their careers - many of them into superstardom.

Sponsored by Dynaudio, Bob has agreed to host two sessions for us, one mid morning and the other mid afternoon on Saturday 15th. He will be in the Dynaudio room and will be sharing some of his favorite and funniest stories.

Space is limited so be sure to come early to avoid disappointment!

SOME OF THE HIGHLIGHTS TO LOOK FORWARD TO:

It wouldn't be an Acoustica show without a strong focus on Naim Audio.

Statement is celebrating it's 10th anniversary this year. Jason Gould from Naim Audio will be performing regular timed demonstrations showing why even after 10 years, Statement is still easily the best amplifier combination ever made!

There will also be full 200, 300 and 500 series systems on demonstration throughout the show.

Focal Scala Utopia are part of Focal's flagship range of speakers.

Pete has them in his system at home and he loves what they can do.

This year, hear them at their very best powered by full Naim Statement.

DYNAUDIO

Bill Livingston from Dynaudio will be with us once again showing another exciting addition to their lineup.

Meet the Confidence 20 - Active. A traditional active speaker - just add a source and pre-amp.

Amazingly, Dynaudio have integrated the amps into the stands and therefore have not had to make any compromises within the speaker!

Bill will be showing both a Naim 500 series and also a 200 series front end. These speakers are so good they don't need ultra high-end electronics to sing. But if you do feed them with the very best be prepared to have your breath taken away!

Kudos has had massive success with their Sigao Active crossover. It has been very popular with our customers this year and a quick listen will tell you why.

In the Kudos room this year we will once again be showcasing an Active system but with a twist.

We want to show you that an Active system needn't cost the earth nor take up half the lounge!

Read on to find out more....

ULTRAFIDE
PRO SOUND - HOMEBOUND

Ultrafide are a relatively new home audio brand but owned by a much larger pro audio company that has been making amps for recording studios and concert halls for decades.

We loved both the build quality and what we heard when we first listened to their pre-power combination. When we saw the price we ordered our dem kit on the spot!

We will be running 3 of these amps in an active system with the matching pre-amp along with a pair of Titan 808s.

Representatives from Ultrafide will be present to show you why this new English brand is so special.

Last year we showed the mighty Blade 1's that cost over £30,000. This year we want to show you that you can get a similar scale and performance for about half the price and in a more wife friendly format!

Enter KEF Reference 5!

Richard Coleman will be with us to demonstrate these wonderful speakers.

He will be pairing them with a full Naim Audio 300 series and Chord company cabling.

A traditional system but with cutting edge technology.

The industry leading REL have just launched a new range of all new S series and Black Label subs!

REL has borrowed ever more tech from their Reference range to improve their best selling line-up.

Chord Company will be demonstrating the new Carbon Special with their new custom built REL sub cables. This will be an eye-opening demonstration.

Chord Company will be at the show en-mass as usual. They will be performing a variety of demonstrations to show the progression through their ever expanding range.

Sonus faber

We are thrilled this year to welcome Sonus Faber to our shop.

We will be demonstrating speakers from their Homage collection combined with a combination of Naim Audio 500 series and Statement S1 Pre amp!

Sonus Faber has a rich history and deep heritage. Every part of the speakers they make are hand crafted in Italy. They focus on using natural materials including on the drivers. If anyone makes a prettier looking speaker we don't know if it!

Sonus Faber is a company that believes a speaker is a musical instrument. They focus their efforts on the emotion of the music - well they are Italian after all!

We agree, and we think you will love them as much as we do!
