

ACOUSTICA HI-FI SHOW 2026

SATURDAY 7TH & SUNDAY 8TH NOVEMBER

10AM - 5PM

DOUBLETREE BY HILTON CHESTER

WE WOULD BE DELIGHTED IF YOU COULD ATTEND OUR ANNUAL ACOUSTICA SHOW.
THIS YEAR WE ARE PROUD TO SHOWCASE MANY GREAT NEW PRODUCTS AND NEW
BRANDS.

McIntosh®

MADE OF SOUND™

It is a big decision to take on a new brand. Happily, McIntosh's heritage, quality and impressive product range made this an easy one. We are pleased to announce that we now stock McIntosh's full range. Founded over 77 years ago, they have a comprehensive product offering, wonderful UK based support and most importantly, a stunning sound.

We were very pleased to be awarded the 'Best Sound' at the North West Audio Show 2026. We used a full 'stack of Mac' bi-amping the mighty Sonus Faber Stradavari.

The McIntosh sound is lively and captivating while remaining entirely believable.

There's an effortlessness to the presentation that is quite hard to put into words but it keeps you seated and eager to listen in a way that very few brands manage.

Sonus faber

Pictured above are the beautiful Sonus Faber Stradavari in our room at the North West Audio Show and we are looking forward to demonstrating them again in November at our show.

They have scale, emotion and beautiful tactility. We have chosen to pair them with a McIntosh Streamer (DS200), McIntosh Turntable, their reference 2 box Pre-Amp (C12000) and a pair of MC611 Mono Power Amps.

Alan Burns of McIntosh will be on hand to help.

Naim Audio will of course be attending. We will be using a ND555 Streamer, S1 Pre-Amp and NAP 500s in one system. Full 300 series in another and 200 series in a third.

Naim Audio have been bought by Barco which is privately owned. Naim are very excited with this collaboration and so are we. Watch this space!

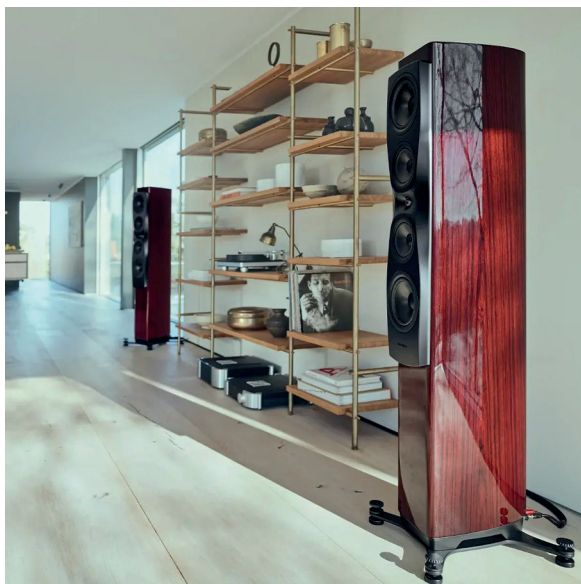

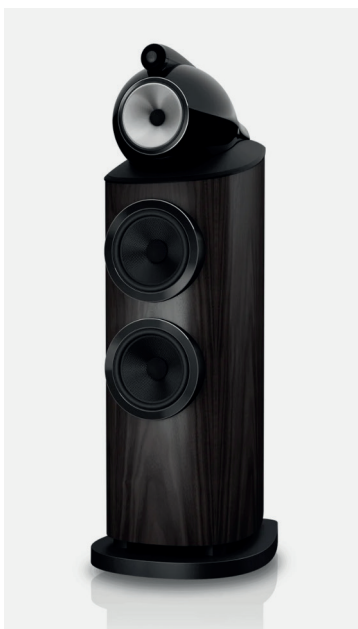

Focal will be showcasing their newest Focal Scala Utopia EvoM speakers. We were recently invited to listen to them at the Naim factory and thought they sounded considerably better than the model they replaced.

They have all new drivers, crossovers and bracing. They are effectively a brand new reference speaker.

DYNAUDIO

Bill Livingston from
Dynaudio will be
enthusiastically showing
Dynaudio's brand new
Confidence 30i speakers.
An exclusive UK first!

This new range of flagship
speakers will comprise of a
stand-mount, and two
floor-standing models. We
are certain they will be
tremendous.

B&W
Bowers & Wilkins

Bowers and Wilkins have just launched
the latest range of their iconic 800 series
speaker the D5.

We will be playing 802D5s with Rega's
top of the line Mercury Pre-Amp and
bi-amping with two Rega Solis power
amps. We will also be using a Planar 10
as well as an Eversolo Streamer. Both
Rega and B&W have never sounded so
good!

KUDOS

Kudos will be showcasing their legendary 808s. Probably our best selling reference speaker. We love what Kudos speakers do and this year we want to show you how versatile they are by partnering them with a McIntosh Integrated amp.

Acoustica are very pleased to be running a significant promotion for Kudos Titan speakers. Call us to find out more!

Kudos will be running an Innous Stream 3 into the McIntosh MA 9500. The MA 9500 sits just below their top of the line integrated amp.

We like it as it provides reference level amplification from just one box.

Powerful enough and high enough quality to drive any speaker with ease and yet with the lights off it can be discrete and unobtrusive.

CHORDTM

COMPANY

The Chord Company will be showing a new product this year at our show!

Their demonstrations are always popular. Anthony and Darren will be pulling out all the stops to make their timed demonstrations even more illuminating.

They will be using Naim 200 Series and the brand new B&W 805 D5 speakers.

SOME OF OUR OTHER BRANDS:

Chord Electronics Ltd.

ARCAM

everSolo

REL
ACOUSTICS LTD.

SME

rega

ENGLISH ELECTRIC
